

The OASIS Metaverse

an ecosystem of blockchain services and games

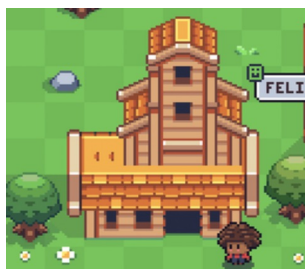

The OASIS Metaverse welcomes all nature-loving blockchain gamers to create, own, play, earn and interact with like-minded natives in its virtual world of lush greeneries and natural beauty.

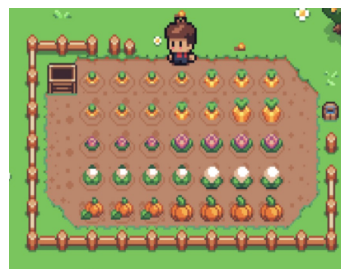

The team is building an ecosystem of games and blockchain services within the OASIS Metaverse harnessing the power of non-fungible tokens (NFTs) and bridging social gaming with decentralized finance (DeFi). DeFi may appear to be exclusive to crypto traders and investors now, but that is about to change. The team at OASIS believes that the social gamification of DeFi will attract a new

generation of DeFi adopters and enrich the overall gaming experience in OASIS. The enticing proposition is to bring social gamers and DeFi enthusiasts together to build a community that brings earnings and rewards beyond just entertainment.

We strive to create a blockchain Metaverse; a one-stop blockchain realm that offers different blockchain services and products, script-less adventures, as well as an in-game economy with infinite possibilities. Team OASIS has produced the game design overview and is developing the core features. The minimum viable version will be available soon.
